OBJECTIVE

Front-End Developer with 2 years of experience delivering clean and high-performance web applications using ReactJS and Angular. I hold a Bachelor of Vocation degree and have completed an internship where I worked with both Angular and React technologies. Although most of my professional experience has been with Angular, I am now focused on advancing my career in ReactJS. I bring strong expertise in building reusable components, optimizing UI performance, and integrating third-party services, with a commitment to creating intuitive user experiences and scalable front-end solutions
